

Day 4

# Pelham Summer Engineering Clinic

## Egg Drop

## Day 2: Egg Drop

*Today we will learn about...*

What makes the egg break?

What makes a good design?

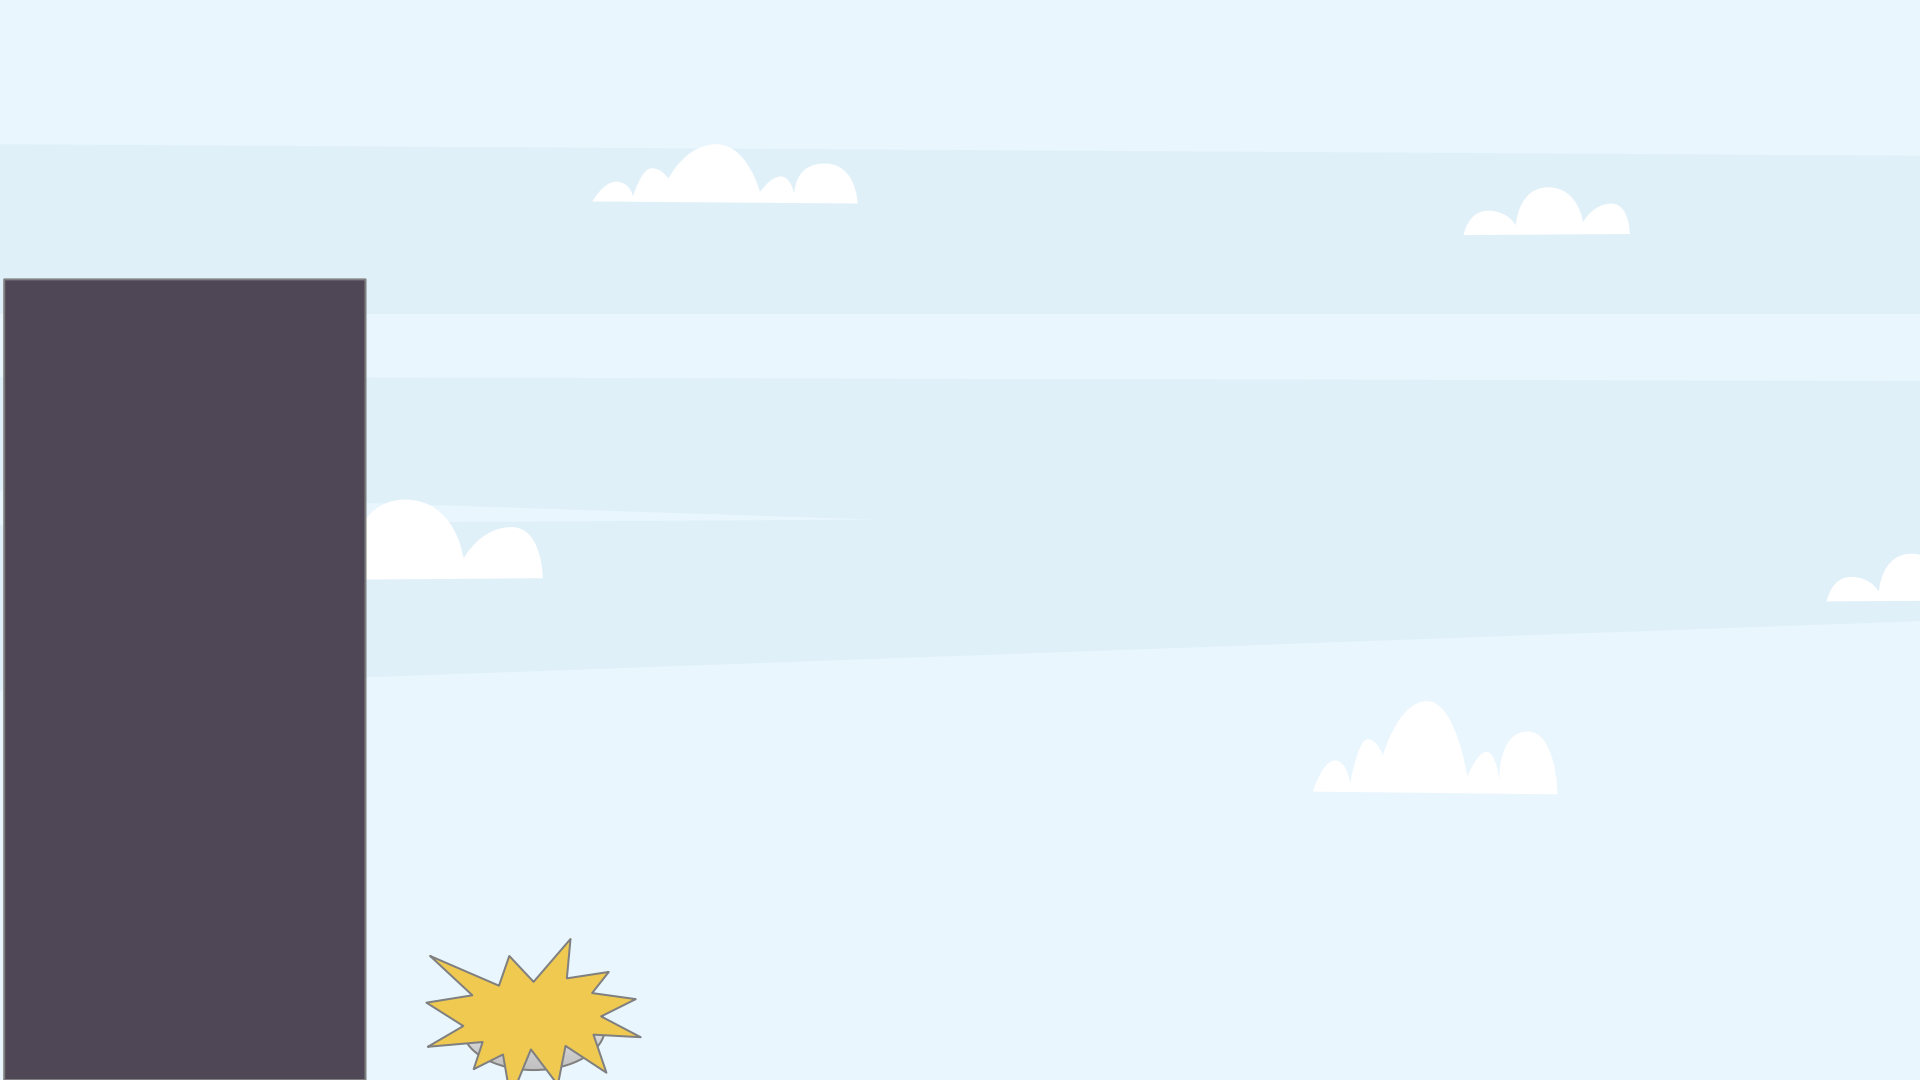

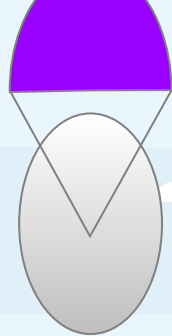

# EGG DROP TRICKS

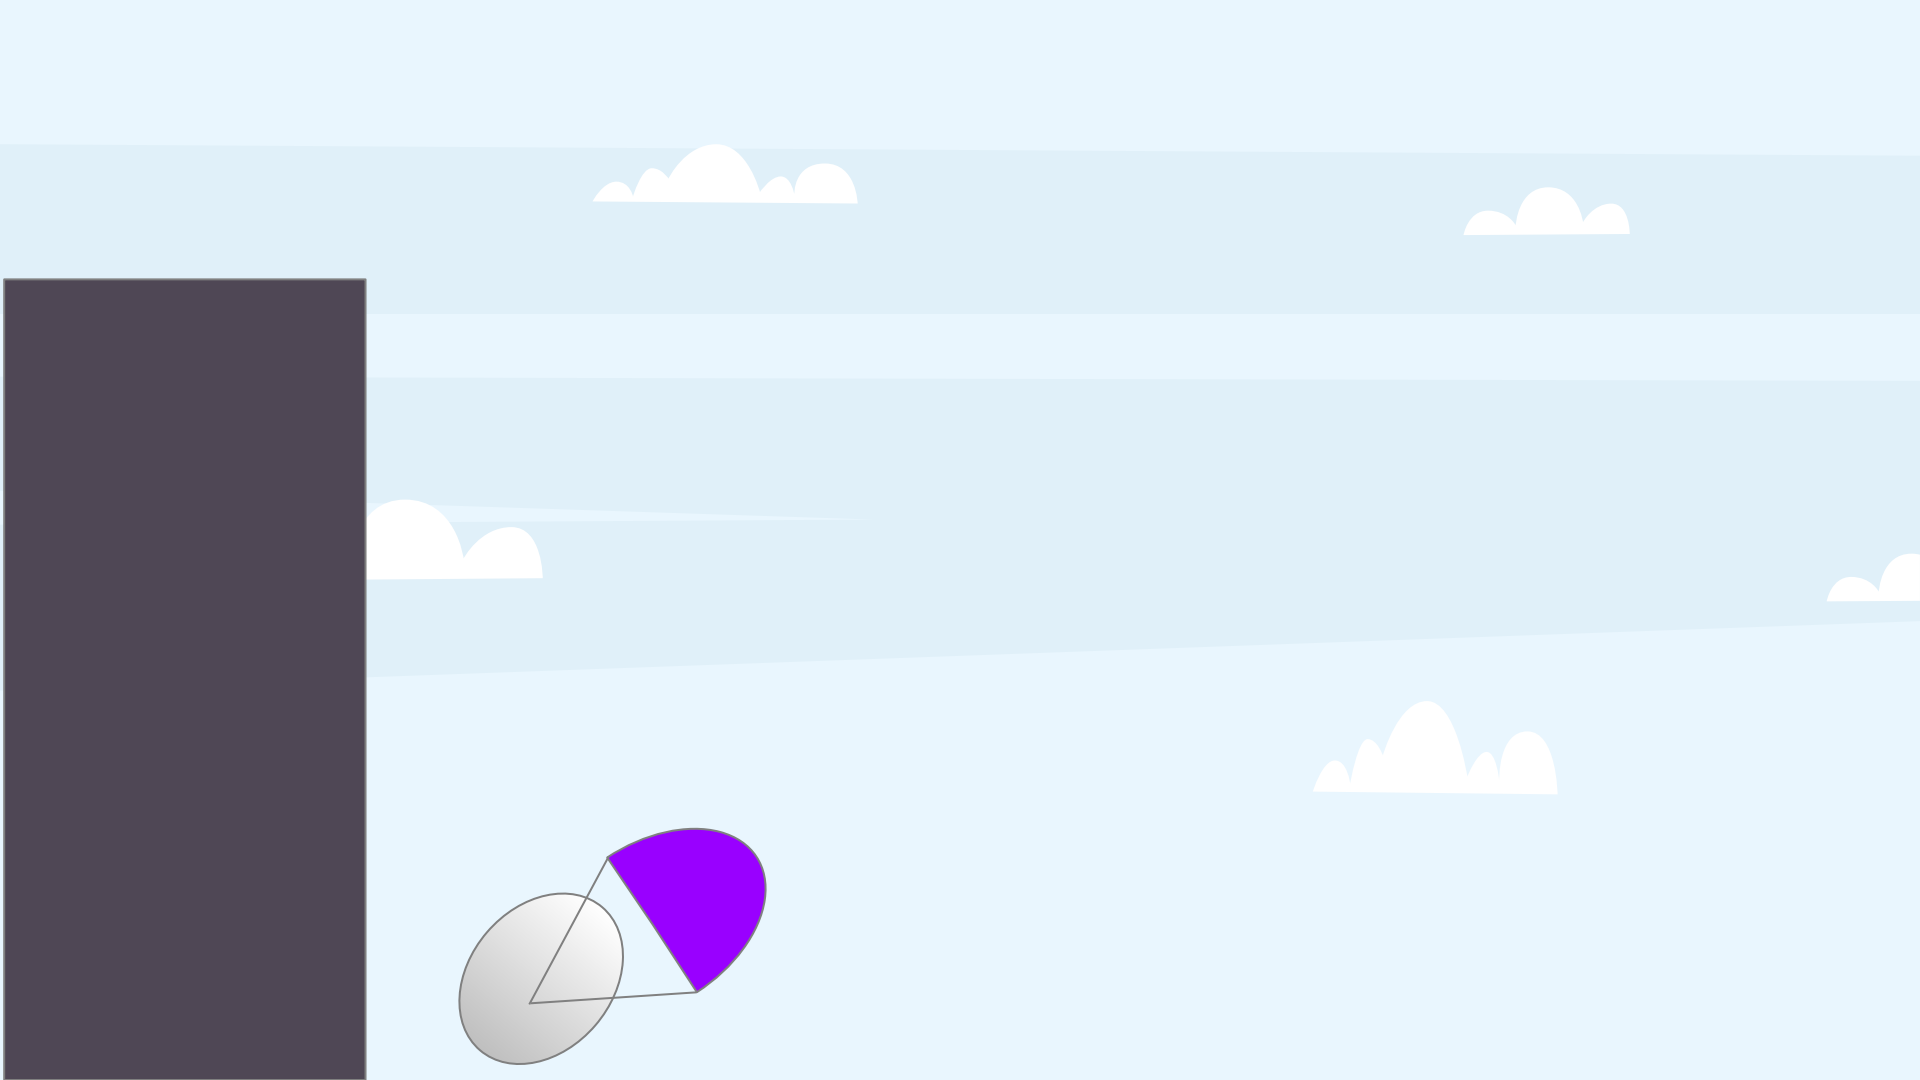

**Gravity**

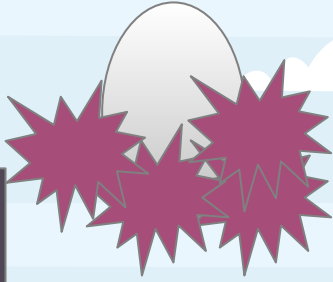

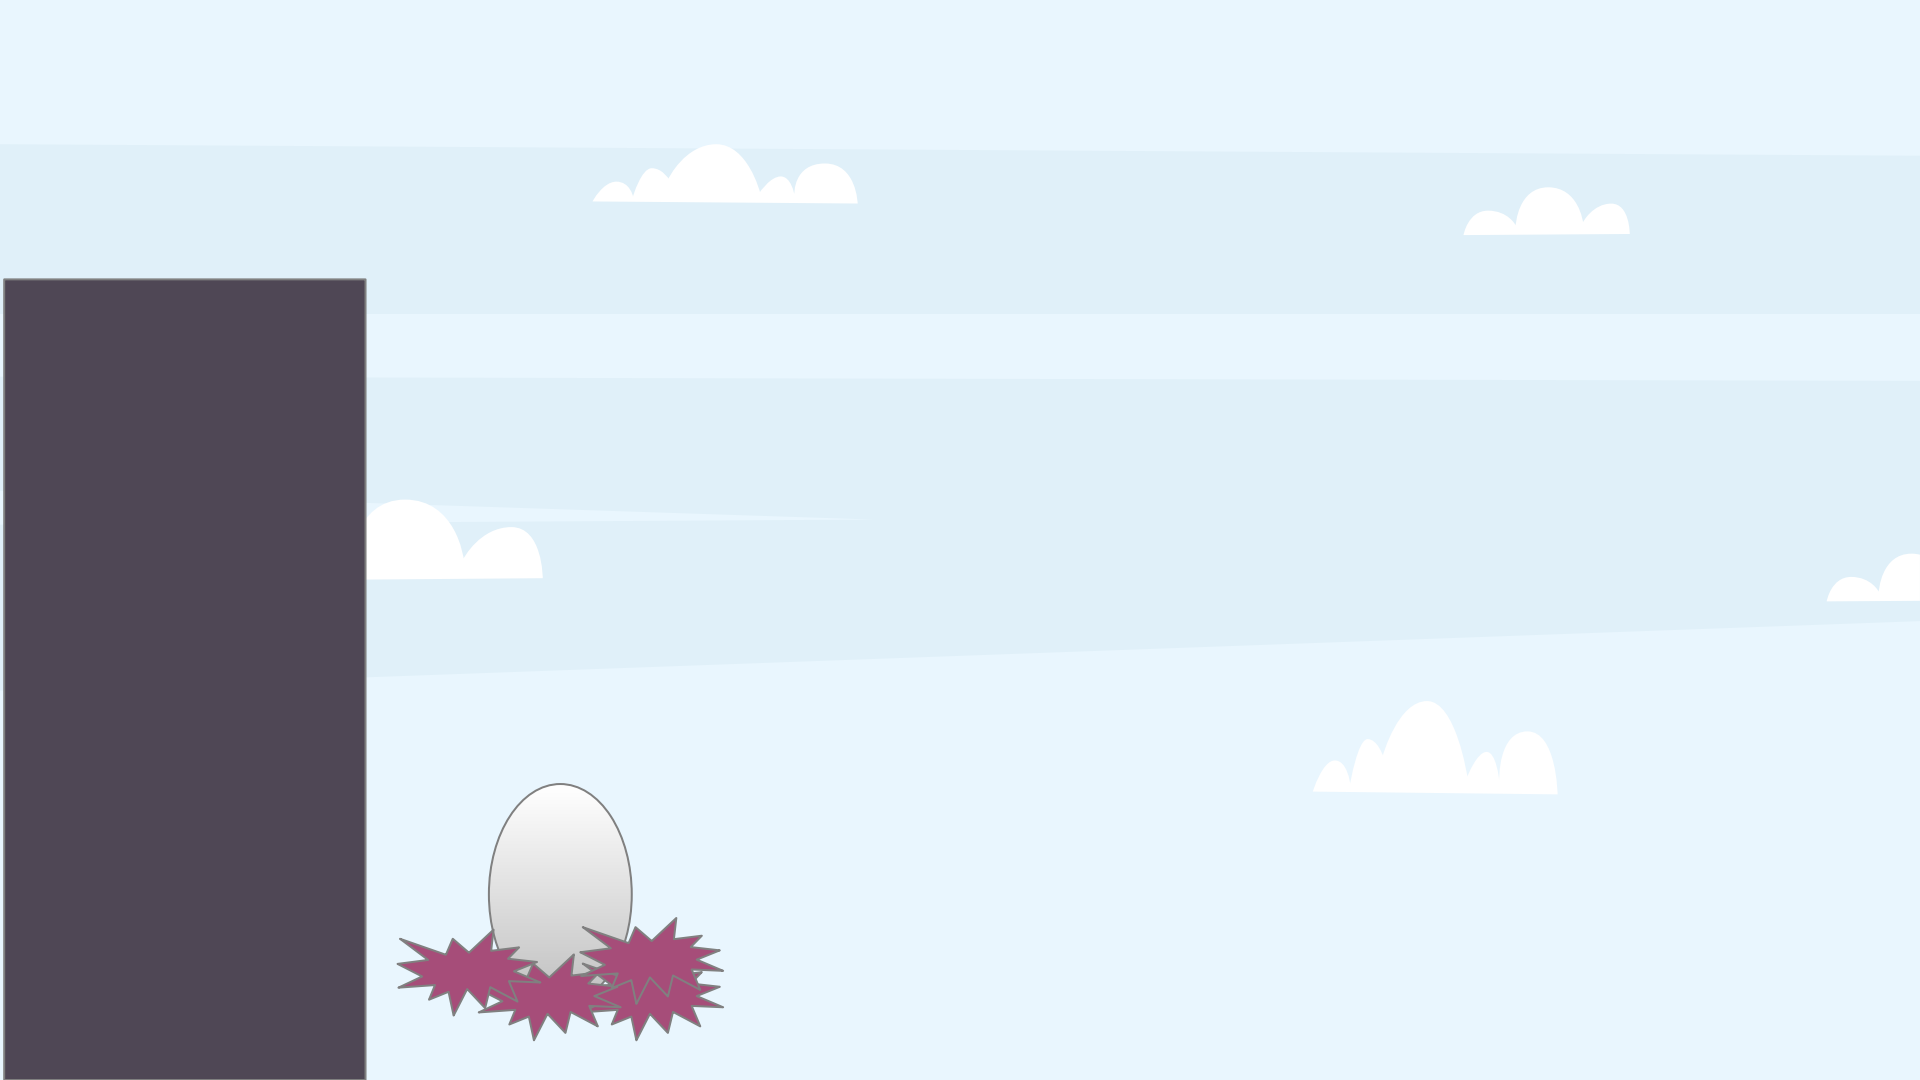

**Slow down the fall time**

# Cushion the Egg

An illustration featuring a yellow crane on the left side. A black stick figure is hanging from the crane's hook. In the center, the word "Challenge!" is written in a large, bold, red sans-serif font. To the right, there is a blue building with several dark blue rectangular windows. The background consists of a light blue sky with horizontal bands of slightly different shades and a few white, fluffy clouds.

**Challenge!**

# **Make a contraption that can protect the egg from a 5ft drop!**

## **Materials:**

**Egg**

**Cardboard**

**Cup**

**Paper**

**Popsicle sticks**

**Paper towel**

**Duct tape**

**Yarn**

**Plastic bag**

**What worked well?**

**What didn't work?**

**How can we fix it?**

Day 2

# Pelham Summer Engineering Clinic

## Rockets!
