

Day 1

Hutchinson Engineering Clinic

Catapults

Catapults

Today we will learn about...

What are simple machines?

What are catapults used for?

How do they work?

Simple Machines

Wheel and Axle

Lever

Inclined Plane

Pulley

Screw

Wedge

Simple machines make work easier by magnifying or changing the direction of force

2nd Class Lever

A stylized illustration featuring a yellow crane on the left, a stick figure hanging from its arm, and a blue building on the right. The background is light blue with white clouds. A red-bordered box in the center contains the text "Castle Siege Challenge".

Castle Siege Challenge

Discuss with your table

Draw your design plan

Choose your materials

What worked well?

What didn't work?

How can we fix it?
