

Day 5

Pelham Summer Engineering Clinic

Rockets

**What does a rocket
look like?**

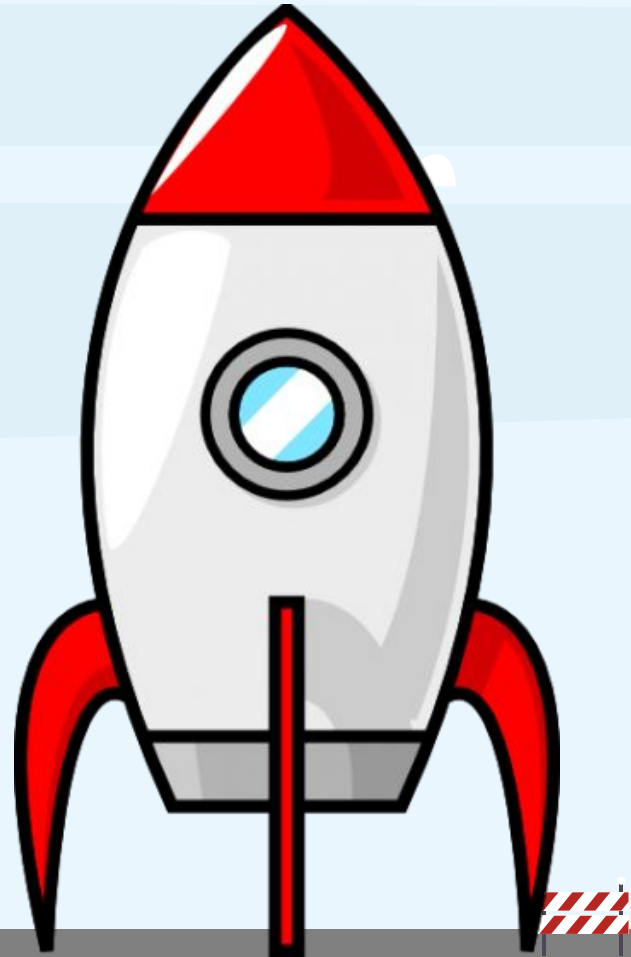

Day 1: Rockets

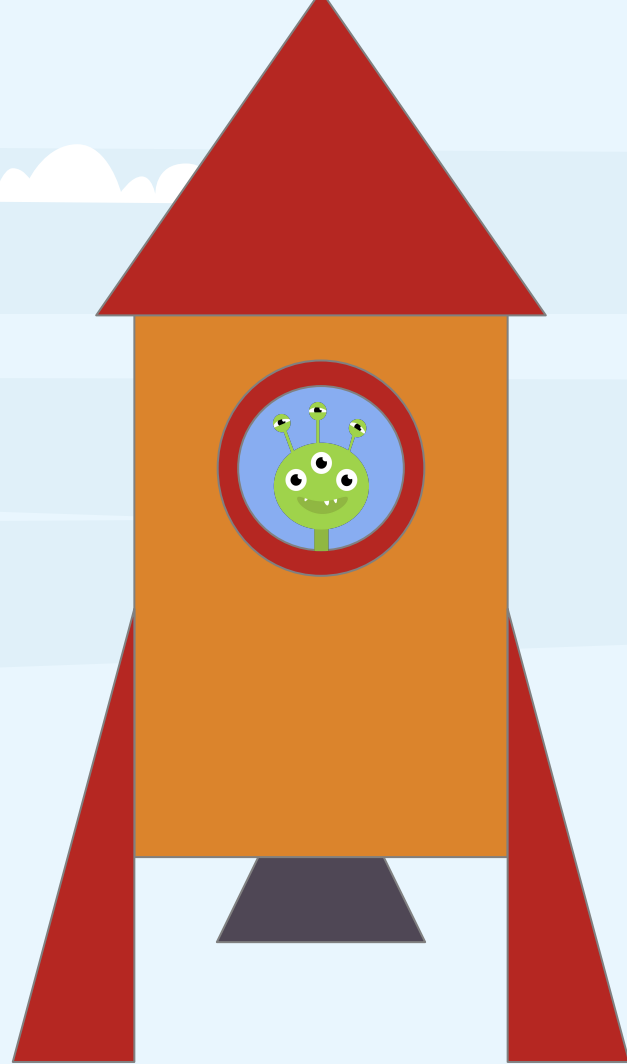

Today we will learn about...

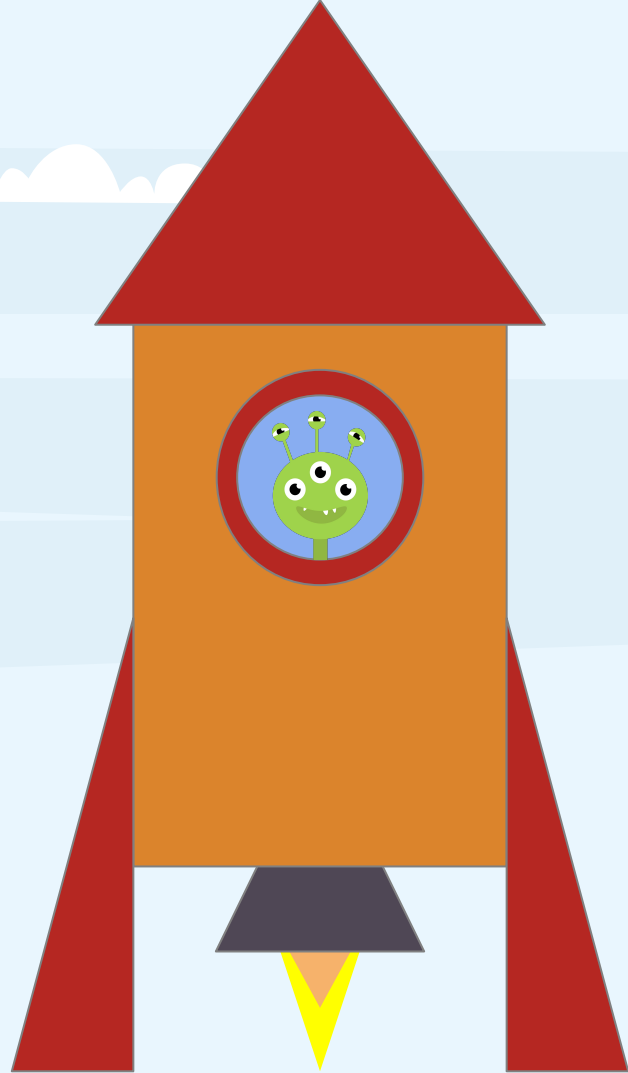

What are the parts of a rocket for?

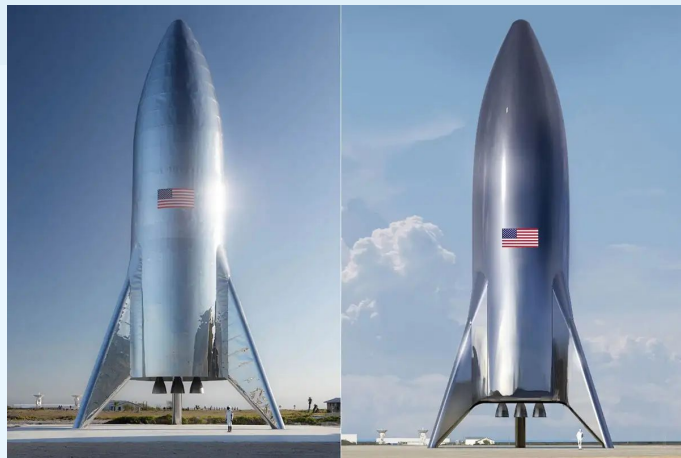

What are rockets used for?

How do they fly?

ARTEMIS I

LAUNCH

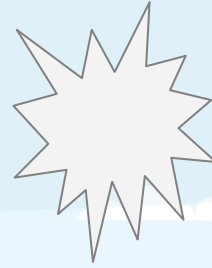

HOW DO ROCKETS FLY?

Sci Kids!
SHOW

How does it work?

Baking soda + Vinegar =

An illustration featuring a yellow crane on the left side. A black stick figure is hanging from the crane's hook. In the center, the word "Challenge!" is written in a large, bold, red font. To the right, there is a blue building with several dark blue rectangular windows. The background consists of a light blue sky with white clouds.

Challenge!

Build a Rocket!!

Materials

Plastic Bottle

Paper

Tape

Pencils

Popsicle sticks

What worked well?

What didn't work?

How can we fix it?
